

# Emergency Preparedness Planning and Resource Manual

The **Emergency Preparedness Planning and Resource Manual** is a facility's guide to creating a customized disaster and emergency plan. The manual includes topics such as emergency preparedness, collaboration and planning through response and after incident recovery. Emergencies and disasters covered in the manual run the continuum from medical emergencies to nuclear power incidents to natural disasters to pandemic flu, with emergency procedures and job tasks pertaining to each. The manual also contains detailed information on creating an incident command system.

This thorough manual **includes a CD tool to create a customized Facility Disaster Plan** that can be printed and distributed within a facility.

## Sections in the Emergency Preparedness Planning and Resource Manual are:

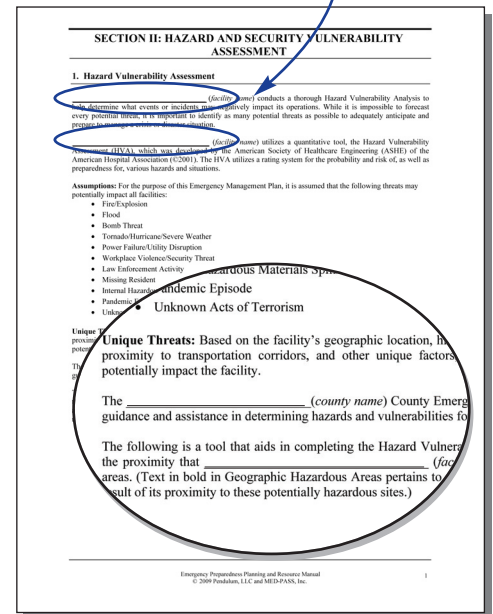

- Introduction to the Emergency Management Plan
- Hazard and Security Vulnerability Assessment
- Emergency Preparedness Collaboration
- Emergency Preparedness and Planning
- Emergency Response
- After Incident Recovery
- Emergency Plan Maintenance

Item # H50050

PDF on CD allows easy "fill-in-the-blank" creation of custom **Facility Disaster Plan**

## A great companion piece to the Emergency Preparedness Planning and Resource Manual

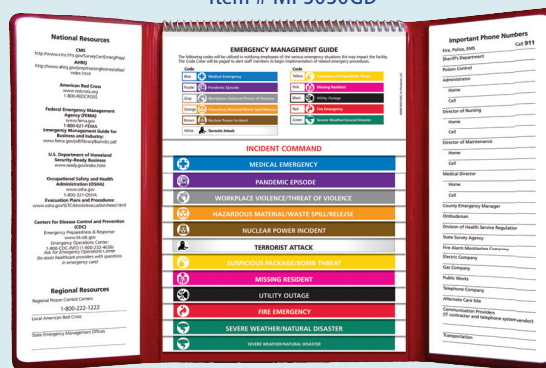

The **Emergency Management Guide** is a handy quick reference to use during emergency situations that could affect a facility. The guide gives a facility at-a-glance reminders and instructions for emergencies ranging from severe weather to workplace violence to missing residents. The guide has an area for facility-specific contact information to be added.

Item # MP5050GD
