Emergency Preparedness Planning and Resource Manual

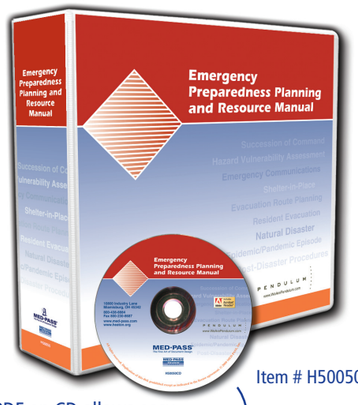
The **Emergency Preparedness Planning and Resource Manual** is a facility's guide to creating a customized disaster and emergency plan. The manual includes topics such as emergency preparedness, collaboration and planning through response and after incident recovery. Emergencies and disasters covered in the manual run the continuum from medical emergencies to nuclear power incidents to natural disasters to pandemic flu, with emergency procedures and job tasks pertaining to each. The manual also contains detailed information on creating an incident command system.

This thorough manual **includes a CD tool to create a customized Facility Disaster Plan** that can be printed and distributed within a facility.

Sections in the Emergency Preparedness Planning and Resource Manual are:

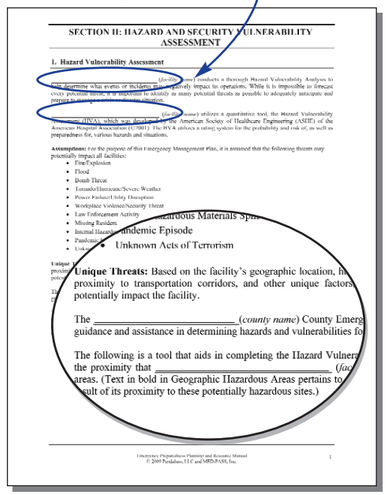
- Introduction to the Emergency Management Plan
- Hazard and Security Vulnerability Assessment
- Emergency Preparedness Collaboration
- Emergency Preparedness and Planning
- Emergency Response
- After Incident Recovery
- Emergency Plan Maintenance

Visit **med-pass.com** to view a detailed Table of Contents, keyword: **H50050**



Item # H50050

PDF on CD allows easy "fill-in-the-blank" creation of custom **Facility Disaster Plan**



SECTION II: HAZARD AND SECURITY VULNERABILITY ASSESSMENT

I. Hazard Vulnerability Assessment

...utilizes a quantitative tool, the Hazard Vulnerability ... (ASHE) of the American Hospital Association (1/1/01). The HVA utilizes a rating system for the probability and risk of, as well as preparedness for, various hazards and situations.

Assumptions: For the purpose of this Emergency Management Plan, it is assumed that the following threats may potentially impact all facilities:

- Fire/Explosion
- Flood
- Bomb Threat
- Extended Hurricane/Severe Weather
- Power Failure/Utility Disruption
- Workplace Violence/Assembly Threat
- Law Enforcement Activity
- Missing Resident
- Internal Hazardous Materials Spill
- Pandemic Episode
- Unknown Acts of Terrorism

Unique Threats: Based on the facility's geographic location, its proximity to transportation corridors, and other unique factors, potentially impact the facility.

The _____ (*county name*) County Emerg... guidance and assistance in determining hazards and vulnerabilities fo...

The following is a tool that aids in completing the Hazard Vulnera... the proximity that _____ (*fac...* areas. (Text in bold in Geographic Hazardous Areas pertains to... fault of its proximity to these potentially hazardous sites.)

Emergency Preparedness Planning and Resource Manual

A great companion piece to the Emergency Preparedness Planning and Resource Manual

The **Emergency Management Guide** is a handy quick reference to use during emergency situations that could affect a facility. The guide gives a facility at-a-glance reminders and instructions for emergencies ranging from severe weather to workplace violence to missing residents. The guide has an area for facility-specific contact information to be added.

Emergency Management Guide Topics:

- Medical Emergency
- Pandemic Episode
- Workplace Violence/Threat of Violence
- Hazardous Material/Waste Spill/Release
- Nuclear Power Incident
- Terrorist Attack
- Suspicious Package/Bomb Threat
- Missing Resident
- Utility Outage
- Fire Emergency
- Severe Weather/Natural Disaster

PENDULUM

Emergency Preparedness and Response Policy and Procedure Manual

H50040

Emergeny Preparedness and Response Policy and Procedure Manual

Extensively revised to reflect industry and governmental agencies' changing approach to disaster management that emphasizes disaster preparedness.

The 2011 edition of this manual has been extensively revised and updated to address new challenges senior care facilities, including long-term care, assisted living and in-patient hospice, face outside the scope of traditional disaster planning. The model policies and procedures in this manual are crafted to help facilities attain a high level of readiness for disaster response and recovery.

Chapter Organization

- Each chapter includes an appendix containing documents that support the policies and procedures in the chapter.
- Policies are listed in alphabetical order in the beginning of the chapter, followed by the procedures in alphabetical order.
- All "Emergency Procedures" are grouped together in each chapter to facilitate access during emergencies.

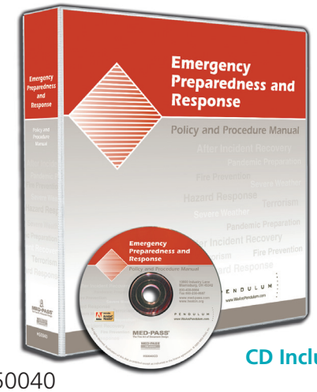
Document Organization

- A "Highlights" column allows user to quickly scan the page for content.
- "References" box provides specific OBRA regulatory numbers, survey tag numbers and related documents.
- The procedures include "policy statement", "policy interpretation and implementation", procedural steps and, where applicable "emergency job tasks" which explain the responsibilities of each discipline during the procedure.

Accompanying CD contains:

- Policies and Procedures in Microsoft® Word files for easy customization.
- PDF version of the manual with hyperlinks allows for quick reference look-up of F-tags, regulations and more.
- Emergency Procedures procedural steps provided in a summarized, printable version.
- Emergency job tasks in Microsoft® Word files detailing responsibilities of each discipline for 20 different events that can be printed and used for training and drills.
- Additional support documentation also found on CD *(not found in printed copy).*

To learn more about this manual and see a detailed Table of Contents and a Sample Policy – visit **med-pass.com** and enter **H50040** in the Search box.



CD Included

H50040
Manual & CD **$249.00**

Organized in eight chapters:

Chapter 1 – All Hazards Planning and Preparation

Chapter 2 – All Hazards Response

Consist of policies and procedures that help facilities plan for and respond to most emergencies. By understanding and following the policies and procedures in these chapters, facilities will establish a framework for rapid and effective response to most situations.

Chapter 3 – Fire Safety and Prevention

Chapter 4 – Epidemic/Pandemic Preparation and Response

Chapter 5 – Severe Weather Preparation and Response

Chapter 6 – Terrorism Preparation and Response

Contain procedures that outline measures to be taken in specific disaster situations. The policies in these chapters address planning needs that are unique to each type of disaster and will reinforce the general "all hazards" policies in Chapters 1 and 2.

Chapter 7 – Miscellaneous Hazards and Emergencies

Addresses smaller-scale incidents that may affect as few as one resident, yet still constitute emergency situations. This chapter is designed to help facilities plan for such incidents in advance, and to minimize disruption if they occur.

Chapter 8 – After Incident Recovery

Focuses on after-incident recovery, addressing issues such as re-entry into the facility, damage assessment, recovery analysis and reopening the facility.
