

PENDULUM

Risk Management Strategies Module

Managing risk in your facility starts with preparing your staff to provide the best possible care. Pendulum's Information and Training Modules are designed to educate all levels of facility staff in managing key high-risk areas. The modules are geared toward the skilled nursing or assisted living environments, or a combination of both. A thorough presentation, discussion questions, and sample resources are provided with each module.

■ What's in this Module?

The Risk Management Strategies Module is a comprehensive reference of effective risk-reduction techniques and tools. The module includes:

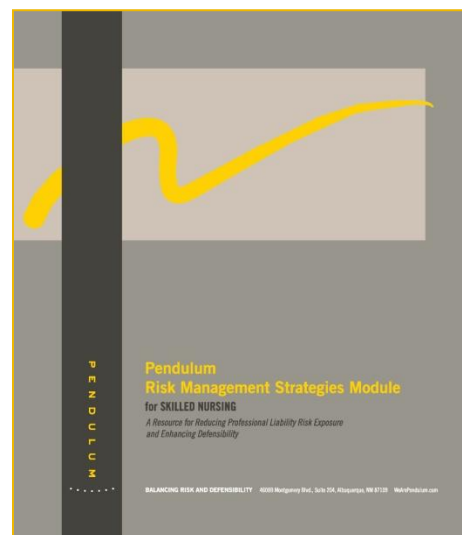

- An extensive list of risk-reduction recommendations
- Quality and risk plans
- Admissions process information
- Arbitration guidance
- An in-service training program on informed decisions
- Guidelines on best practices in risk management
- Sample policies and procedures
- Glossary of healthcare and insurance terms
- Web resources

The Risk Management Strategies Module also comes with a one-year subscription to the Pendulum Risk Management Resource Center, an online portal with more than 1,000 documents, tools, and other resources to help manage risk in the healthcare setting.
